Your partner for innovative sterile supplies logistics

Experience and Heritage

Hupfer is a family-owned company with over 150 years of experience in stainless steel processing. Since 1870, we have been manufacturing at our site in Germany and stand for "Made in Germany" quality. Our solutions have grown for generations alongside the challenges of our customers.

International Presence

With around 550 employees and locations in eleven countries, we are active worldwide. Our products are used in many countries and support clinics, hospitals, and reprocessing units for medical devices every day.

Solutions for the CSSD

We specialize in sterile goods logistics. For the CSSD and OR's we offer, among other things:

- Trays and baskets for sterile goods
- Transport carts and transport systems
- Shelving systems for secure storage
- Packing and work tables, as well as cleaning tablesystems and cabinets

Our products support the entire sterile goods cycle – from receipt and reprocessing to storage and provision for the operating theatre. We focus on hygiene, ergonomics, and ease of use.

Consulting, Service and Practical Support

We assist with the planning, modernization, and expansion of CSSD areas. Our experience from many projects in hospitals and sterile supply centers helps us design workflows that are efficient and safe. Service and quick assistance with questions or spare parts have the highest prioritry for us.

Quality and Safety

Our quality management is certified according to ISO 9001. We are also certified in accordance with ISO 13485 for medical devices. Our products are regularly tested and continuously improved.

Reliability and Responsibility

Hupfer is synonymous with durable products, reliability, and partnership-based collaboration. We focus on sustainable solutions that make everyday work in the CSSD safer and more efficient.

Your dedicated creator thoughout the entire logistics cycle

Our company is committed to providing holistic solutions designed to enhance the efficiency of reprocessing operations across its entire cycle.

As "efficiency creators", we not only want to develop economical products, but we also want to do so as efficiently as possible. But when exactly is an activity efficient? In short, When you achieve your goals with little effort. Hupfer offers efficient solutions along the entire process chain in sterile supplies logistics.

DECONTAMINATI

SINK UNITS

Hupfer sink units with hygiene levels H1 or H2 and seamless construction ensure maximum hygiene safety.

Design your sink units according to your needs: choose from modular elements such as sink cabinets, drawer or door cabinets, and expand them with practical accessories such as compressed air guns, hose sprayers, splash guards, or ultrasonic sinks.

STERILE GOODS TRANSPORT AND KÄNGURUH CARTS

Both Hupfer sterile goods transport and Känguruh carts offer excellent handling and maximum safety for the supply and disposal of sterile goods. The products meet the highest standards and impress clients with their robust design and ease of use.

MORE ON **P. 16/34**

ON AREA

STERILE GOODS BASKETS

Hupfer sterile goods baskets are manufactured from high-quality electrolytically polished stainless steel wire, making them ideal for the transportation and storage of sterile goods in soft packaging. Depending on the design, they can be used in cabinet systems, transport trolleys, shelving systems, or in combination with wall-mounted hook rails.

MORE ON **P. 29**

INSTRUMENT BASKETS

Hupfer trays and baskets are designed to ensure optimal organisation, protection, and cleaning of surgical instruments. The products facilitate seamless workflows in the management of sterile supplies and play a pivotal role in ensuring the safety of staff and patients.

MORE ON **P. 21**

PACKING AREA

PACKING TABLES

Hupfer work and packing tables made of high-quality stainless steel meet the highest standards. They are individually configurable—height-adjustable, with or without intermediate shelves, mobile or stationary—and provide safe and user-friendly working conditions thanks to their hygienic design.

MORE ON **P. 64**

BASKET DISPENSER

Our basket dispensers allow for space-efficient stacking, temporary storage, and ergonomic provision of sterile goods baskets in the reprocessing process.

MORE ON **P. 44**

ATTACHMENTS

Hupfer attachments are designed to optimise workstations. Each attachment is meticulously crafted to ensure unparalleled workmanship, durability, functionality and ergonomics, contributing to enhanced order, clarity and efficiency in daily work activities.

MORE ON **P. 51**

GENERAL PURPOSE TROLLEYS

Hupfer general purpose trolleys offer excellent handling and maximum safety for transporting and temorarily storing equipment and working materials. They meet the highest standards and impress with their robust design and easy handling.

MORE ON **P. 38**

INSTRUMENT BASKETS

Hupfer instrument trays and baskets ensure optimal organisation, protection, and cleaning of surgical instruments. The products facilitate seamless workflows in the management of sterile supplies and play a pivotal role in ensuring the safety of staff and patients.

MORE ON **P. 21**

PAPER HOLDER TROLLEYS

Hupfer paper holder trolleys are equipped with four practical storage frames, providing practical and reliable support for paper sheets. The trolleys are safe and easy to handle, offering practical and reliable assistance in any setting.

MORE ON **P. 44**

STERILE GOODS BASKETS

Hupfer sterile goods baskets made of high-quality electrolytically polished stainless steel wire are used for the transport and storage of sterile goods in soft packaging. Depending on the design, they can be used in cabinet systems, transport carts, shelving systems, or in combination with wall-mounted hook rails.

MORE ON **P. 29**

STERILE GOODS

TALL CABINETS

Hupfer tall cabinets provide ample storage space for safe and protected storage while ensuring clarity, versatility, and easy handling. They can be precisely adjusted to accommodate various types of stored goods, allowing quick and secure access to materials and instruments at any time.

ROBOTIC INSTRU

PRE-CLEANING

Our cleaning table systems also feature specialized basins for the cleaning of robotic instruments.

STERILE GOODS BASKET

This sterile goods basket is specially optimized for a da Vinci scope plus multiple instruments, making it capable of supplying a complete surgical procedure.

TRANSPORT CARTS

The transport carts are specifically designed for the transport sterile goods baskets, and are available in two heights and as a version for truck transport.

SHELVING SYSTEM

The shelving system is designed to accommodate the oversized dimensions of robotic instruments, offering efficient storage and seamless integration into existing shelving systems.

OPEN TRANSPORT TROLLEYS

With its double-sided access, the open transport trolleys vis specifically designed for distributing baskets in operating room environments.

TALL CABINET

For particularly protected storage, this tall cabinet can accommodate sterile goods baskets.

KÄNGURUH-SYS

STORAGE, TRANSPORT AND PROVISION OF STERILE GOODS WITHOUT

TRANSPORT CART

The enclosed transport cart serves as a protective casing for the sterile goods transported inside. It accommodates one or more insertion racks.

PUSH-IN RACK

The insertion rack holds the sterile goods and can be transported as a whole. This reduces manual repacking and, therefore, direct contact with the sterile packaging. Ideally, the insertion rack bridges the interface to the sterilizer and runs through the entire process as a complete unit.

TEM

ANY UNNECESSARY REPACKAGING

medical-international@hupfer.com

TRANSFER TROLLEY

The transfer trolley is designed to dock with both the transport trolley and the steriliser, allowing individual insertion racks to be transported further at transfer points.

PLATFORM

The platform serves as a fixed storage location for insertion racks, where they can be securely locked in place.

DOCKING THRESHOLD

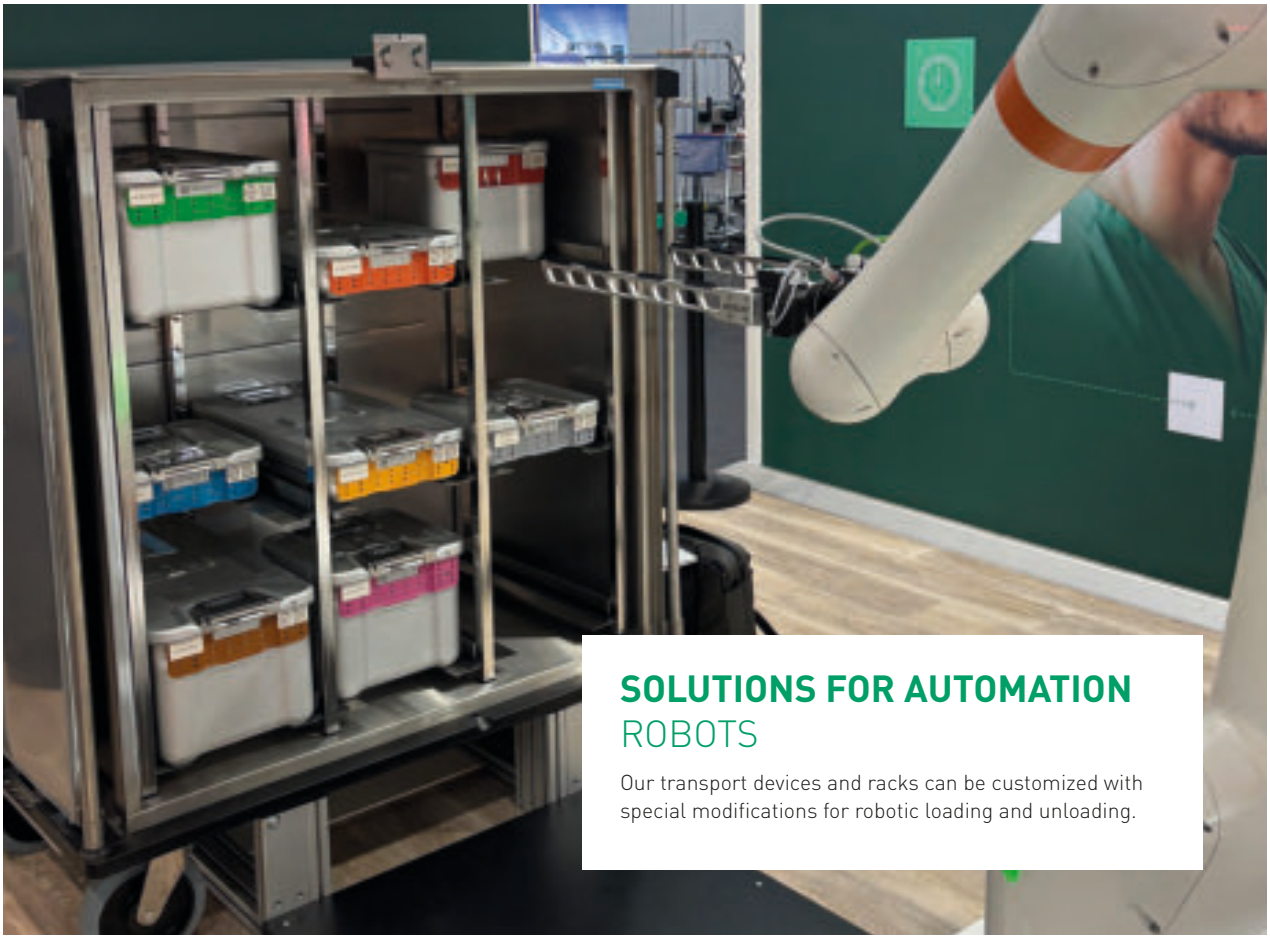

If desired, the system can be expanded with docking thresholds. These enable physical separation between two hygiene zones.

SOLUTIONS FOR AUTOMATION
AGV

We can adapt our transport trolleys to various AGVs and interfaces within the process flow (e.g. trolley washer).

SOLUTIONS FOR AUTOMATION
ROBOTS

Our transport devices and racks can be customized with special modifications for robotic loading and unloading.

SOLUTIONS FOR AUTOMATION
CONVEYOR BELTS

To bridge long distances and provide a staightforward method of automation, we also offer conveyor belts.

SOLUTIONS FOR AUTOMATION
AMR

Our transport devices can also be flexibly transported using AMRs.

Trays and Baskets

Careful and structured handling of sterile supplies is the basis for many crucial processes in clinics, hospitals and sterilisation facilities. Hupfer offers a comprehensive range of baskets and containers for a wide variety of applications and requirements. They meet the highest quality standards from the material to the workmanship and guarantee optimum functionality and safety in daily use.

Instrument baskets

Instrument baskets

Hupfer instrument baskets offer an efficient, hygienic and safe solution for the structured organisation, protection and cleaning of surgical instruments. They help to increase patient safety and support smooth processes in sterile supply.

Wire mesh baskets

- Validated medical device for maximum safety
- Optimised mesh size for best cleaning results
- Highest manufacturing quality for long-lasting use
- Stacking frame for safe and space-saving storage
- Drop handles for easy and safe handling

Dimensions W × D × H mm	Product code
240 × 250 × 50	**7500053**
240 × 250 × 70	**7500046**
480 × 250 × 100	**7500049**
480 × 250 × 50	**7500059**
480 × 250 × 70	**7500048**

Double baskets

Our double baskets combines two baskets in a clever system that facilitates the safe transport and disposal of used surgical instruments. During transport, an instrument basket acts as a lid so that the instruments are particularly well protected. In the operating theatre, one basket is used for preparing sterile instruments, while the other is used as a practical decontamination container.

Double baskets

- Closed lid for maximum protection
- Integrated disposal container for efficient processes
- Validated medical device for maximum safety
- Optimised mesh size for maximum cleaning results
- Highest manufacturing quality for long-lasting use

Dimensions W × D × H mm	Product code
505 × 250 × 100	**7501188**

Instrument baskets

Instrument baskets with perforated sides

Hupfer perforated trays offer an efficient, hygienic and safe reprocessing solution, especially for instruments with fine points.

MD

Perforated trays

- Validated medical device for maximum safety
- Large floor meshes for efficient cleaning
- Perforated sheet metal protects the sterile barrier from puncturing by sharp instruments
- Highest manufacturing quality for long-lasting use

Dimensions W × D × H mm	Product code
120 × 250 × 60	**7500809**
240 × 250 × 60	**7500645**
360 × 250 × 60	**7515007**
480 × 250 × 100	**7515006**
480 × 250 × 60	**7500599**

MD

Perforated trays with stacking frame

- Validated medical device for maximum safety
- Large floor meshes for efficient cleaning
- Perforated sheet metal protects the sterile barrier from puncturing by sharp instruments
- Highest manufacturing quality for long-lasting use
- With stacking frame for safe and space-saving storage

Dimensions W × D × H mm	Product code
240 × 250 × 66	**7501295**
480 × 250 × 66	**7501296**

Accessories for instrument baskets

Lids

Hupfer lids for baskets protect instruments from damage or falling out.

MD

Lid for wire mesh baskets

- Practical screw cap for reliable sealability.
- Sturdy frame for maximum dimensional stability.
- Hygienic, easy-to-clean surface structure for the simplest hygiene

Dimensions W × D × H mm	Product code
240 × 250 × 16	**7500912**
480 × 250 × 16	**7500911**

MD

Lid for perforated trays

- Practical screw cap for reliable sealability.
- Sturdy frame for maximum dimensional stability.
- Hygienic, easy-to-clean surface structure for the simplest hygiene

Dimensions W × D × H mm	Product code
240 × 250 × 16	**7515645**
480 × 250 × 16	**7515599**

Accessories for instrument baskets

Instrument fixations

Hupfer instrument fixations enable safe, flexible storage and fixation of instruments in baskets.

Instrument fixation

- Validated medical device for maximum safety
- Designed for sensitive instruments
- Simple, time-saving installation
- Minimum tray size 240 × 250 mm / 480 × 250 mm

Dimensions W × D × H mm	Product code
231 × 225 × 40	**7501397**
467 × 225 × 40	**7501400**

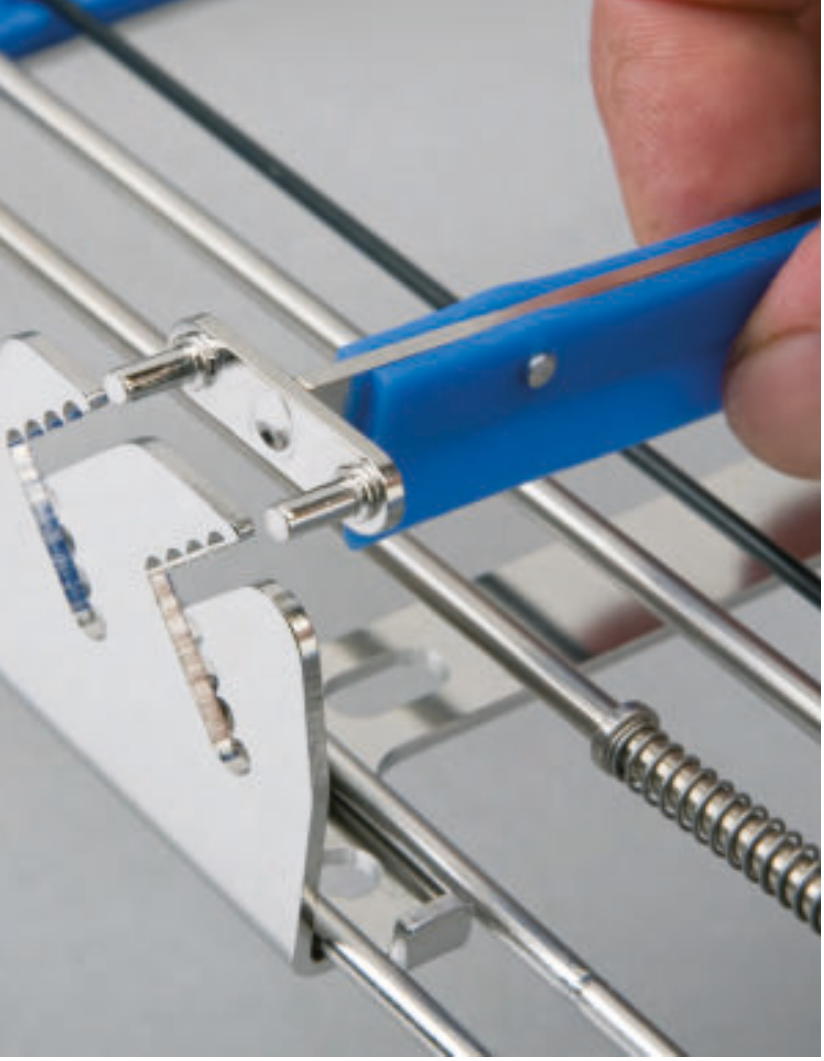

Instrument fixation long-shaft

- Validated medical device for maximum safety
- Designed for sensitive instruments with long shafts
- Simple, time-saving installation
- Minimum tray size 480 × 250 mm

Dimensions W × D × H mm	Product code
460 × 232 × 155	**7501402**

Label Holder

Hupfer label holder enables the labelling and quick identification of instrument baskets.

Label holder

- Flexible use thanks to simple attachment
- Durable and resistant to processing influences
- Space-saving design with optimum labelling area

Dimensions W × D × H mm	Product code
10 × 80 × 40	**7504908**

MD

Fixation Clamp

- Validated medical device for maximum safety
- Designed for sensitive instruments
- Simple, time-saving installation
- Continuously adjustable
- Minimum tray size 240 × 250 mm

Dimensions W × D × H mm	Product code
200 × 236 × 44	**7501134**

Special baskets

Endoscope baskets

Hupfer endoscope baskets offer reliable protection and fixation for rigid endoscopes and accessories throughout the entire reprocessing process.

Basket for 1 rigid endoscope

- Validated medical device for maximum safety
- Flexible silicone benches for optimum positioning and protection of the endoscope
- Secure twist lock prevents self-opening
- Closed wire loops prevent scratches

Dimensions W × D × H mm	Product code
290 × 80 × 52	**7500479**
460 × 80 × 52	**7500475**

Basket for 1 rigid endoscope and connections

- Validated medical device for maximum safety
- Flexible silicone benches for optimum positioning and protection of the endoscope
- Secure twist lock prevents self-opening
- Closed wire loops prevent scratches
- Holder for accessories and connections

Dimensions W × D × H mm	Product code
290 × 80 × 52	**7501334**
460 × 80 × 52	**7501336**

MD

Instrument basket for 2 rigid endoscopes

- Validated medical device for maximum safety
- Flexible silicone benches for optimum positioning and protection of the endoscope
- Secure twist lock prevents self-opening
- Closed wire loops prevent scratches

Dimensions W × D × H mm	Product code
290 × 80 × 52	**7500831**
460 × 80 × 52	**7500830**

MD

Endoscope basket with optical fibre cable holder

- Validated medical device for maximum safety
- Flexible silicone benches for optimum positioning and protection of the endoscope
- Secure twist lock prevents self-opening
- Closed wire loops prevent scratches
- Maximal length of optical fibre: 4.500 mm

Dimensions W × D × H mm	Product code
640 × 150 × 77	**7500849**

Instrument basket for ENT

Hupfer instrument baskets with perforated sides for ENT are specially developed for reprocessing ENT instruments.

MD

Instrument basket for ENT with fine mesh basket

- Validated medical device for maximum safety
- Silicone benches for optimum protection of instruments
- Separate fine mesh basket
- Removable lid for easy access

Dimensions W × D × H mm	Product code
240 × 250 × 40	**7501349**
480 × 250 × 40	**7501350**

Fine mesh baskets

Fine mesh baskets

Hupfer fine mesh baskets offer safe and efficient storage of small parts and accessories during the cleaning process. They make sure that nothing goes missing.

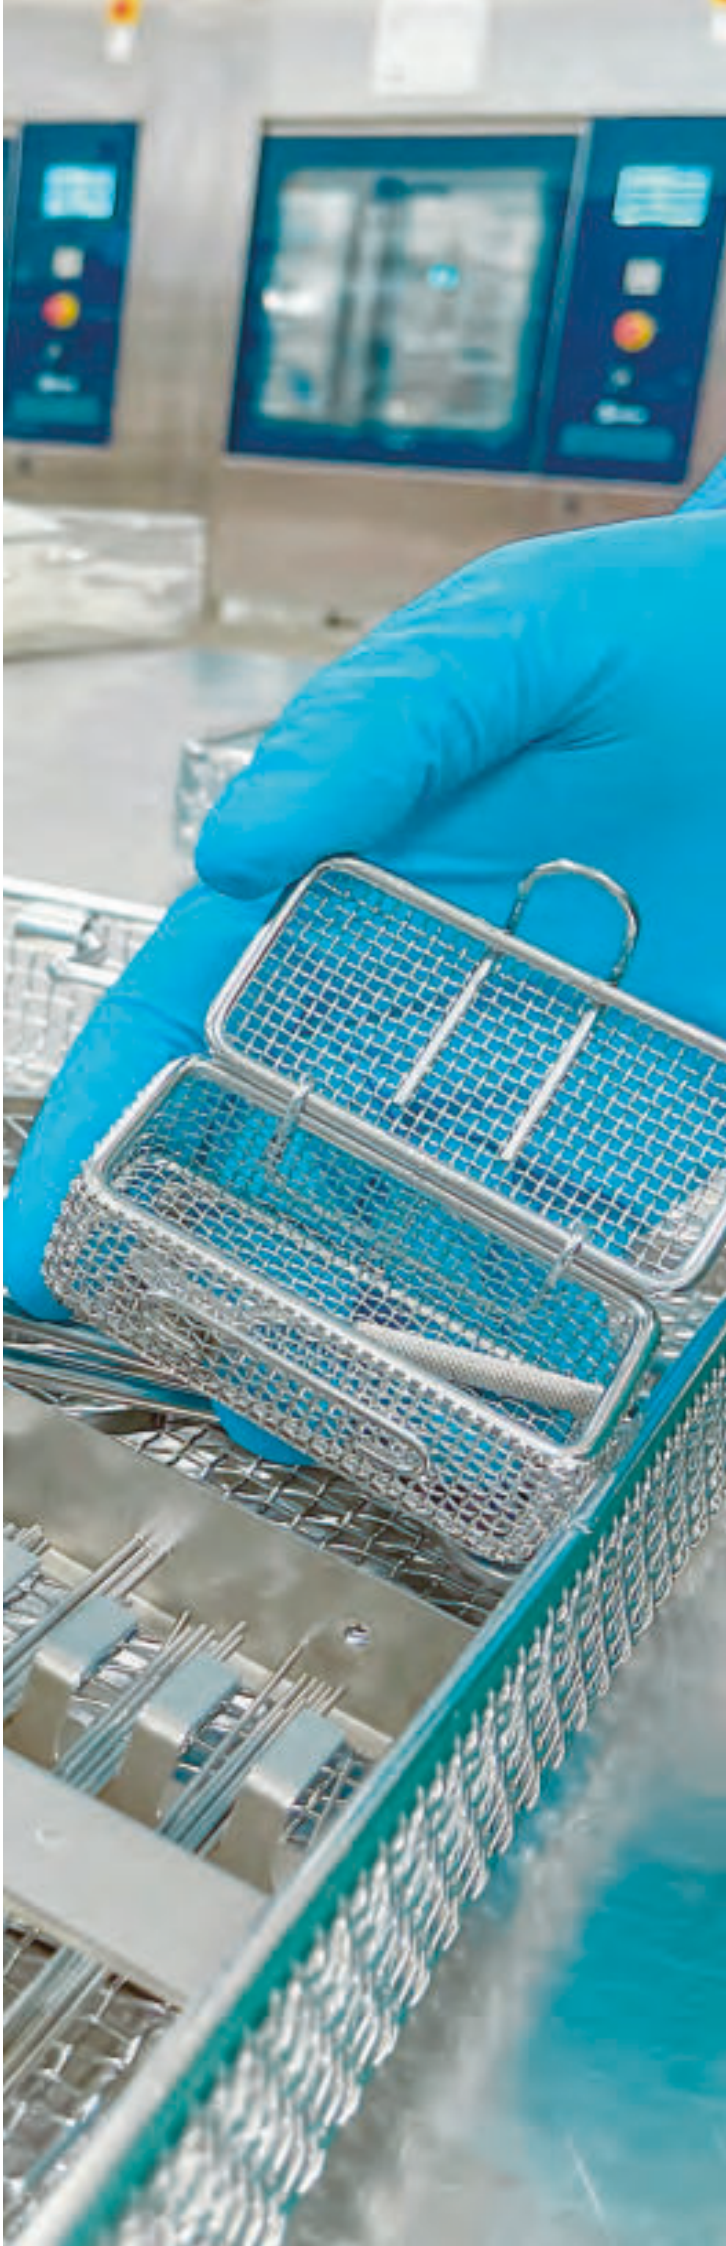

MD

Fine mesh basket made of stainless steel wire

- Validated medical device for maximum safety
- Fine-meshed fabric (1.6 × 1.6 mm) for safe cleaning of small parts
- Simple quick-release fastener for uncomplicated opening/closing

Dimensions W × D × H mm	Product code
200 × 100 × 50	**7501204**
210 × 150 × 40	**7501161**
224 × 140 × 54	**7501133**
274 × 174 × 36	**7501135**
310 × 210 × 40	**7501162**
80 × 40 × 32	**7501282**
80 × 80 × 42	**7501132**

Sterile goods baskets

Sterile goods basket – stackable on top of each other

Our sterile goods baskets are ideal for the transport, storage and provision of sterile goods in soft packaging. They ensure safe handling and maximum protection for the packaged sterile goods.

Sterile goods basket – stackable on top of each other

- Stackable for easy storage
- Handle openings for safe and ergonomic transport
- Optimum protection of the soft packaging thanks to closed wire loops without sharp edges
- Perfect for providing materials on hook trolleys and wall-mounted hook rails

Nominal format	Dimensions W × D × H mm	Product code
StE 1/2	575 × 280 × 135	**7500016**
StE 1/1	575 × 280 × 265	**7500017**
StE 2/1	575 × 560 × 265	**7500019**

ISO 1/1	600 × 400 × 300	**7500626**

Sterile goods basket – stackable into and on top of each other

Our sterile goods baskets offer the best protection for soft-packed instruments in reprocessing logistics. They guarantee efficient work processes, protect sensitive contents and save space at the same time.

Sterile goods basket - stackable into and on top of each other

- Highest manufacturing quality for smooth surfaces
- Drop handles for safe stacking without losing the protective function
- Special basket edges for easy stacking
- Optionally with practical slide-in frame for storage in U-shaped profile rails

Nominal format	Dimensions W × D × H mm	Product code
Spri 1/2	585 × 395 × 100	**7593507**
Spri 1/1	585 × 395 × 197	**7593508**

ISO 2/3	600 × 400 × 180	**7214006**

Sterile goods baskets

ErgoSlide sterile goods basket – stackable with innovative slide rail

Our ErgoSlide sterile goods baskets can be slid over one another without the upper basket falling into the lower one.

ErgoSlide sterile goods basket

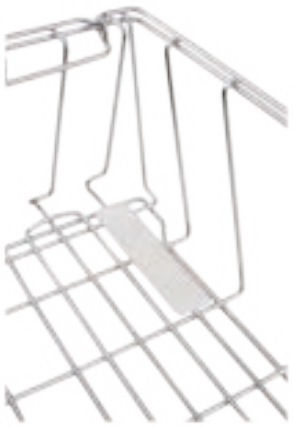

- Patented slide rails for ergonomic handling
- Optimum protection for soft packaging and instruments
- Reliable edge guard for additional protection of soft packaging
- With practical slide-in frame for easy storage on shelves

Nominal format	Dimensions W × D × H mm	Product code
StE 1/2	600 × 292 × 138	**7501860**
StE 1/3	600 × 292 × 97	**7501863**

Accessories for sterile goods baskets

Hupfer accessories for sterile goods baskets offer practical additional functions in the reprocessing process for optimised partitioning or additional protection.

Damage Protection Clip

Dimensions W × D × H mm	Product code
110 × 25 × 10	**7500279**

Basket divider – crosswise

- Effortless attachment and removal
- Quick adjustment to different requirements
- Fully sterilisable

Nominal format	Dimensions W × D × H mm	Product code
StE 1/2	262 × 7 × 126	**7501982**
StE 1/2	278 × 8 × 118	**7500218**
StE 1/1	278 × 8 × 241	**7500219**

Other Baskets

Catheter baskets

Our catheter baskets are ideal for storing and providing catheters of different sizes and can be easily attached to equipment rails.

Catheter basket for medical equipment rails

- Suitable for equipment rails
- Highest manufacturing quality for long-lasting use
- Optimum mesh size to protect the catheters

Dimensions W × D × H mm	Product code
150 × 100 × 200	**7500150**
150 × 100 × 280	**7500151**
150 × 100 × 480	**7500152**

Wire baskets

Hupfer multifunctional wire baskets offer an easy-to-clean solution for use in hygienically demanding environments.

Wire basket

- Highly versatile use for clinical applications
- Base frame for additional stability

Dimensions W × D × H mm	Product code
100 × 100 × 100	**7500900**
160 × 160 × 160	**7500903**
200 × 200 × 200	**7500905**
300 × 200 × 200	**7500906**

Polymer containers

Hupfer decontamination containers made of high-quality polypropylene offer a reliable solution for the transport and disposal of surgical materials.

Polymer container

- Safe transport and decontamination of surgical materials.
- Hygienic design for easy cleaning
- Temperature resistant from 0 °C to +100 °C
- Cannot be sterilised

Dimensions W × D × H mm	Product code
610 × 300 × 200	**7506651**

Transport solutions

Safe and efficient sterile supply cycles are crucial for successful work in clinics, hospitals and sterilisation facilities, hospitals and sterilisation plants. Hupfer offers integrated transport solutions tailored to the multiple, specific requirements and simple to handle as well as optimised user-friendliness.

Transport carts and trolleys

Transport carts

Wherever containers, baskets or sterile supplies have to be protected when transported or stored, enclosed transport carts are the ideal solution. Their sturdy construction, practical equipment and easy manoeuvring make them reliable companions for daily use.

Transport carts with L-shaped rails

- With L-shaped profile rails for standardized baskets and containers
- Vertical handles for ergonomic maneuvering
- Hinged doors with 270° opening angle for easy loading and unloading
- Circumferential door seals
- Top manufacturing quality for long service life

Capacity	Dimensions W × D × H mm	Product code
6 StE	1031 × 751 × 1472	**7504643**
9 StE	1285 × 751 × 1471	**7504644**

Transport carts with L-shaped rails, fully-welded

- Robot-welded body for maximum hygiene
- With L-shaped profile rails for efficient standards
- Hinged doors with 270° opening angle for easy loading and unloading
- Vertical handles for ergonomic maneuvering
- Top manufacturing quality for long service life

Capacity	Dimensions W × D × H mm	Product code
6 StE	965 × 754 × 1445	**7504641**
9 StE	1249 × 754 × 1440	**7504642**

Transport carts with solid shelves, UN3291

- Full-length shelf for variable container sizes
- Hinged doors with 270° opening angle for easy loading and unloading
- Vertical handles for ergonomic maneuvering
- Top manufacturing quality for long service life
- Certified drop test according to UN3291

Capacity	Number of boards	Dimensions W × D × H mm	Product code
6 StE	2	985 × 751 × 1471	**7506451**
9 StE	2	1285 × 751 × 1471	**7506285**

Transport carts and trolleys

Transport carts with solid shelves

- Full-length shelf for variable container sizes
- 270° opening hinged doors for easy loading and unloading
- Vertical handles for ergonomic maneuvering
- Top manufacturing quality for long service life

Capacity	Number of boards	Dimensions W × D × H mm	Product code
6 StE	2	985 × 751 × 1471	**7504647**
9 StE	2	1285 × 751 × 1471	**7504648**

Transport carts with solid shelves, fully-welded

- Robot-welded body for maximum hygiene
- Full-length shelf for variable container sizes
- 270° opening hinged doors for easy loading and unloading
- Vertical handles for ergonomic maneuvering
- Top manufacturing quality for long service life

Capacity	Number of boards	Dimensions W × D × H mm	Product code
6 StE	2	965 × 754 × 1464	**7504645**
9 StE	2	1249 × 754 × 1464	**7504646**

Open transport trolleys

This versatile equipment for intermediate storage or transport is ideal for a wide range of applications and working areas. Our open transport carts are available in various designs and keep containers, baskets and working materials clearly and visibly available at all times. The high-quality stainless steel design makes them extremely load-bearing and durable.

Transport trolleys with L-shaped rails

- Access from both sides for easy loading and unloading
- Height-adjustable rails for flexible use of space
- Roof can be adjusted at any time between flush and gallery
- Stainless steel construction for maximum hygiene

Capacity	Dimensions W × D × H mm	Product code
3 StE	430 × 675 × 1448	**7506754**
6 StE	760 × 675 × 1448	**7506753**
9 StE	1090 × 675 × 1448	**7506752**

Transport trolleys with solid shelves

- Access from both sides for easy loading and unloading
- Height-adjustable shelves for flexible use of space
- Roof can be adjusted at any time between flush and gallery
- Stainless steel construction for maximum hygiene

Capacity	Dimensions W × D × H mm	Product code
3 StE	430 × 675 × 1448	**7506751**
6 StE	760 × 675 × 1448	**7506750**
9 StE	1090 × 675 × 1448	**7506749**

General purpose trolleys

General purpose trolleys

These robust helpers can be used in a variety of ways for transporting and temporarily storing equipment and working materials.

General purpose trolley

- Sound-dampened shelves for quiet operation
- Stainless steel design for maximum hygiene
- Stable and durable due to welded on shelves
- Easy and safe to maneuver due to low weight
- Load capacity: 40 kg per shelf; max. 150 kg

2	1200 × 625 × 800	**7500661**

Platform trolley

These robust helpers can be used in a variety of ways for transporting and temporarily storing equipment and working materials. Our platform trolleys are especially suitable for carrying large loads.

Platform trolley

- Stainless steel construction for maximum hygiene
- Stable and durable
- Easy and safe to maneuver due to low weight
- Single platform for large loads
- Load capacity: 120 kg

Number of boards	Dimensions W × D × H mm	Product code
1	1095 × 695 × 1017	**0112632**
1	895 × 595 × 1017	**0112602**

Mobile shelving units

Our transport shelving units are an excellent solution for storing large numbers of sterile goods baskets or other materials while also remaining mobile.

Norm 5 solid shelf

- Solid surface for easy cleaning
- Perfect hygiene
- Tool-free adjustable shelves
- Shelf load: max. 150kg

Dimensions W × D × H mm	Product code
1000 × 540 × 40	**0102682**

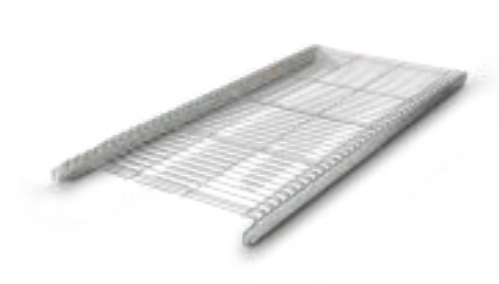

Mobile shelving unit for self-assembly

- In kit form
- Mobile and multi purpose
- Shelves sold separatley
- Tool-free height adjustment
- Load capacity: 200 kg

Dimensions W × D × H mm	Product code
1075 × 675 × 900	**0121391**
1075 × 675 × 1200	**0121404**
1075 × 675 × 1652	**0123093**

General purpose trolleys

Norm 5 wired shelf

- Good ventilation prevents condensation
- Perfect hygiene
- Tool-free adjustable shelves
- Shelf load: max. 150kg

Dimensions W × D × H mm	Product code
1000 × 540 × 49	**0101782**

Norm 5 louvred shelf

- Optimal combination of surface and ventilation
- Perfect hygiene
- Tool-free adjustable shelves
- Shelf load: max. 150kg

Dimensions W × D × H mm	Product code
1000 × 540 × 40	**0101787**

Operating theatre trolleys

Hupfer operating theatre trolleys are specially designed to meet the high demands of operating theatres.

Operating theatre disposal trolley for containers

- L-shaped profile rails with tool-free mounting
- Antistatic castors guarantee hygiene and safety standards
- Stainless steel construction for maximum hygiene

Dimensions W × D × H mm	Product code
650 × 410 × 900	**7500753**

Operating theatre instrument stand

- Height adjustable from 715 - 1.200 mm
- Effective Dimensions: 530 × 325 mm
- Antistatic castors guarantee hygiene and safety standards
- Stainless steel construction for maximum hygiene
- Without insert tray, available as accessory

Dimensions W × D × H mm	Product code
627 × 400 × 715	**7500858**

Operating theatre instrument table

- Removable tabletops for easy cleaning
- Frame prevents instruments from falling down
- Antistatic castors guarantee hygiene and safety standards
- Stainless steel construction for maximum hygiene

Dimensions W × D × H mm	Product code

3	1010 × 496 × 913	**0163922**

Hook system

Hupfer hook trolleys provide clearly organised, instant access to many different items and are perfect for transport, intermediate storage and use. Constructed entirely of stainless steel tubes, they can be adapted to the requirements at hand with a variety of equipment options and attachments.

Hook trolleys

Hook trolleys sets

Hupfer hook trolleys facilitate efficient and systematic access to a wide range of treatment supplies. In addition, they are ideal for both transportation and temporary storage.

Hook trolley set for 40 pairs of shoes

- Set includes 8 baskets for surgical shoes
- Stainless steel construction for maximum hygiene
- Stable and durable
- Easy and safe to maneuver
- Maximum load per hook 30 kg

Number of hook pairs	Dimensions W × D × H mm	Product code
8	605 × 675 × 1620	**7506174**

Hook trolley set for 20 pairs of shoes

- Set includes 4 baskets for surgical shoes
- Stainless steel construction for maximum hygiene
- Stable and durable
- Easy and safe to maneuver
- Maximum load per hook 30 kg

Number of hook pairs	Dimensions W × D × H mm	Product code
4	605 × 620 × 1620	**7506173**

Hook trolley set for StU containers

- Set includes 4 holders for StU containers
- Stainless steel construction for maximum hygiene
- Stable and durable
- Easy and safe to maneuver
- Maximum load per hook 30 kg

Number of hook pairs	Dimensions W × D × H mm	Product code
4	605 × 620 × 1620	**7506478**

Hook trolleys

Hook trolley set for orthopaedics

- Set consisting of hook trolley Medidul with double side loading, 5 sterile goods baskets and 1 set of drawer frames for 4 sterile goods units
- Stainless steel construction for maximum hygiene
- Stable and durable
- Easy and safe to maneuver
- Maximum load per hook 30 kg

Number of hook pairs	Dimensions W × D × H mm	Product code
8	650 × 1005 × 1657	**7506477**

Hook trolley for visceral surgery

- Set consisting of hook trolley with double side loading and 5 sterile goods baskets, 1 inclined element for sterile goods basket, 1 suture storage unit and 1 shelf
- Stainless steel construction for maximum hygiene
- Stable and durable
- Easy and safe to maneuver
- Maximum load per hook 30 kg

Number of hook pairs	Dimensions W × D × H mm	Product code
8	605 × 675 × 1620	**7506476**

Hook trolley set for anaesthesia

- Set consisting of hook trolley with double side loading and 8 sterile goods baskets, 4 storage bins, 1 catheter basket and accessories for fastening
- Stainless steel construction for maximum hygiene
- Stable and durable
- Easy and safe to maneuver
- Maximum load per hook 30 kg

Number of hook pairs	Dimensions W × D × H mm	Product code
8	605 × 675 × 1620	**7506475**

Hook trolley set for urology

- Set consisting of hook trolley Medidul with double side loading and 9 sterile goods baskets, 1 sterile goods shelf, 1 wire containers, 2 catheter baskets, 3 storage bins, 1 wire holder for disposable gloves and accessories for fastening
- Stainless steel construction for maximum hygiene
- Stable and durable
- Easy and safe to maneuver
- Maximum load per hook 30 kg

Number of hook pairs	Dimensions W × D × H mm	Product code
15	650 × 1005 × 1657	**7506474**

Hook trolleys

Hook trolleys

Hupfer hook trolleys provide quick and clear access to a large amount of material and are also perfect for transport and temporary storage.

Hook trolley with single side loading

- Flexible use thanks to a wide range of attachments
- Stainless steel construction for maximum hygiene
- Stable and durable
- Easy and safe to maneuver
- Maximum load per hook 30 kg

Number of hook pairs	Dimensions W × D × H mm	Product code
3	605 × 465 × 1460	**7500032**
4	605 × 620 × 1620	**7500092**

Hook trolley with double side loading

- Flexible use thanks to a wide range of attachments
- Stainless steel construction for maximum hygiene
- Stable and durable
- Easy and safe to maneuver
- Maximum load per hook 30 kg

Number of hook pairs	Dimensions W × D × H mm	Product code

8	605 × 675 × 1620	**7500093**

Attachments

Wire holder

The Hupfer hook systems' wide range of available attachments allows for adaptation to specific functions and tasks. All products are characterised by excellent workmanship, durability, functionality and ergonomics for safe and efficient work processes.

Wire holder for tubes and cables

- 11 closed wire loops
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
600 × 113 × 181	**7500460**

Wire holder for endoscopes

- Effective length of hooks: 150 mm
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
555 × 164 × 82	**7501927**

Wire holder with hooks

- Effective length of hooks: 150 mm
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
555 × 182 × 82	**7500451**
636 × 186 × 71	**7500871**

Attachments

Shelves

The Hupfer hook systems' wide range of available attachments allows for adaptation to specific functions and tasks. All products are characterised by excellent workmanship, durability, functionality and ergonomics for safe and efficient work processes.

Shelf

- For notebook or computer monitor
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
575 × 390 × 155	**7500467**

Universal shelf

- With rear upstand
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
695 × 350 × 165	**7502154**

Suture storage unit - wire

- For storage and provision of suture material in 10 standard small packages
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
604 × 135 × 365	**7500458**

Universal shelf with rear panel

- With rear wall and upstandes on the sides
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
600 × 360 × 260	**7500086**

Suture storage unit - sheet metal

- For storage and provision of suture material in 10 standard small packages
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
600 × 170 × 290	**7500079**

Sterile goods shelf

- Welded wire loops
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
553 × 314 × 170	**7500440**

Attachments

Holders

The great variety of available attachments means that our hook system can be adapted to many different functions and tasks. They are all characterised by excellent workmanship, durability, functionality and ergonomics for safe and efficient work processes.

Wire holder for StU container and lid

- With lid storage
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
612 × 316 × 300	**7500373**

Wire holder for StU container

- Secure, open storage
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
622 × 316 × 58	**7500375**

Paper holder

- For paper sheets for sterile packaging
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
560 × 284 × 303	**7500478**

Wire holder for peel pouches

- For peel pouches up to 600 mm widths
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
630 × 270 × 194	**7500552**

Wire holder for disposable gloves

- Up to 6 disposable glove boxes
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
555 × 139 × 215	**7500384**

Peel pouch cutter

- For peel pouches up to 510 mm widths
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
623 × 373 × 294	**7507012**

Holder for laundry/waste bags

- For 1 laundry or waste bag 60–70 l
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
555 × 313 × 240	**7500101**

Attachments

Wire holder for stack wells

- Up to 2 stack wells
- Each stack well holder is 245 mm in diameter
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
560 × 281 × 180	**7500104**

Universal holder for containers

- For wire or plastic containers, size 3, 4 and 5
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
108 × 655 × 20	**7500448**

Polymer containers

The Hupfer hook systems' wide range of available attachments allows for adaptation to specific functions and tasks. All products are characterised by excellent workmanship, durability, functionality and ergonomics for safe and efficient work processes.

Blue polymer storage container

- Suitable for universal holder
- Temperature resistant from -40 °C to 80 °C
- Polyethylene
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
210 × 350 × 200	**7502743**
150 × 230 × 125	**7502753**
100 × 170 × 75	**7502763**

Wire container

The Hupfer hook systems' wide range of available attachments allows for adaptation to specific functions and tasks. All products are characterised by excellent workmanship, durability, functionality and ergonomics for safe and efficient work processes.

Wire container

- Suitable for universal holder
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
215 × 350 × 200	**7502945**
153 × 231 × 125	**7502946**

Baskets

Hupfer sterile goods baskets are designed for the efficient transport, storage and provision of consumables.

Sterile goods basket

- Ideal for providing materials on hook trolleys and wall-mounted hook rails
- Attachment and removal without tools

Nominal format	Dimensions W × D × H mm	Product code
StE 1/1	575 × 280 × 265	**7500017**
StE 1/2	575 × 280 × 135	**7500016**
StE 2/1	575 × 560 × 265	**7500019**

Attachments

Sterile goods basket with access opening

- Ideal for providing materials on hook trolleys and wall-mounted hook rails
- Easy access through access opening
- Attachment and removal without tools

Nominal format	Dimensions W × D × H mm	Product code
ISO 1/1	600 × 400 × 300	**7500969**
StE 1/1	575 × 280 × 265	**7500018**

Sterile goods basket with inclined access opening

- Ideal for providing materials on hook trolleys and wall-mounted hook rails
- Easy access through inclined access opening
- Attachment and removal without tools

Nominal format	Dimensions W × D × H mm	Product code
StE 1/2	575 × 280 × 135	**7500148**

Angled support for baskets

- For ergonomic inclination of suspended sterile goods baskets
- Attachment and removal without tools
- Package content: 2 units

Dimensions W × D × H mm	Product code
35 × 62 × 111	**7500289**

For shoes

The Hupfer hook systems' wide range of available attachments allows for adaptation to specific functions and tasks. All products are characterised by excellent workmanship, durability, functionality and ergonomics for safe and efficient work processes.

Shoe rack

- Up to 6 pairs of shoes
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
600 × 320 × 270	**7500374**

Wire holder for theatre-clogs

- Up to 6 pairs of shoes
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
600 × 263 × 191	**7500452**

Shoe basket

- Up to 5 pairs of shoes
- Attachment and removal without tools

Dimensions W × D × H mm	Product code
585 × 300 × 320	**7501457**

Shelving systems

Hupfer shelving systems offer tailor-made solutions for storing, stocking and providing everything from sterile supplies and working materials to consumables and equipment.
The large selection of dimensions, overlays, combination options, material and equipment variants sets no limits even to the configuration of complex shelving systems.

Norm 5 stationary shelving

Stationary shelving set Norm 5 with solid shelves

Hupfer stationary shelving sets norm 5 are designed to offer a flexible solution for a wide range of requirements and spatial configurations, from the storage of sterile goods and laundry to the storage of consumables.

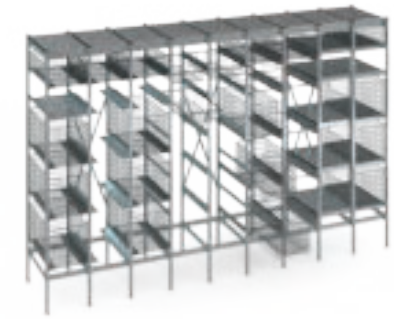

Stationary shelving set Norm 5 with solid shelves – height 2000 mm*

- Modular system saves space and fits in any environment
- Shelves are height-adjustable in increments
- Compatible with Medidul shelving units
- Convertible into an Easy Rider
- Max. bay load: 600 kg; max. shelf load: 150 kg

Dimensions W × D × H mm	Product code
1000 × 600 × 2000	**N5GS10006002000**
1100 × 600 × 2000	**N5GS11006002000**
1200 × 600 × 2000	**N5GS12006002000**
1300 × 600 × 2000	**N5GS13006002000**
1400 × 600 × 2000	**N5GS14006002000**
1500 × 600 × 2000	**N5GS15006002000**
600 × 600 × 2000	**N5GS6006002000**
700 × 600 × 2000	**N5GS7006002000**
800 × 600 × 2000	**N5GS8006002000**

Easy Rider systems

The Easy Rider system is the ideal solution whenever storage capacity has to be increased but space is limited. This system increases the capacity of storage room by up to 100 percent compared to conventional shelving systems by eliminating redundant aisles.

Easy Rider system **Stationary shelving system**

MediFurn Medical furnishings

Hupfer MediFurn Medical furnishings and fixtures are characterised by their high-quality workmanship, flexibility and extreme resilience in tough conditions. MediFurn is a new generation of furnishings that sets new standards in terms of functionality, workmanship and design.
The seamlessly welded products are easier to clean and hygiene can be more reliably maintained.

Packing and work tables

Packing & work tables

Sturdy, versatile and expandable, packing tables can be used in many different departments. The electrohydraulic height adjustment makes them especially comfortable to use. It means the packing tables can be infinitely adjusted at the touch of a button to the optimum height for fatigue-free working.

Packing table, stationary

- Solid tabletop of hygienic stainless steel

Dimensions W × D × H mm	Product code
1400 × 700 × 900	**7506773**
1600 × 700 × 900	**7506774**
1800 × 700 × 900	**7506775**
2000 × 700 × 900	**7506776**

Packing table, mobile

- Solid tabletop of hygienic stainless steel
- Mobile for easier cleaning of the surrounding area

Dimensions W × D × H mm	Product code
1400 × 700 × 900	**7506777**
1600 × 700 × 900	**7506778**
1800 × 700 × 900	**7506779**
2000 × 700 × 900	**7506780**

Packing table, stationary, electrically height-adjustable

- Solid tabletop of hygienic stainless steel
- Electrically height-adjustable for better ergonomics, 300mm

Dimensions W × D × H mm	Product code
1400 × 700 × 850	**7506781**
1600 × 700 × 850	**7506782**
1800 × 700 × 850	**7506783**
2000 × 700 × 850	**7506784**

Packing and work tables

Packing table, mobile, electrically height-adjustable

- Solid tabletop of hygienic stainless steel
- Mobile for easier cleaning of the surrounding area
- Electrically height-adjustable for better ergonomics, 300mm
